NAVAL AND MILITARY NOTES.

To Sir Evelyn Wood's swords of honour a proud addition has been made by the German Emperor. This gift is a memento of the review witnessed by the Emperor last August at Aldershot, the military district in Sir Evelyn Wood's command. The hilt of the new sword is richly studded with diamonds, and bears the devices W. R. and the Imperial Crown. The sword will be a suitable companion to that publicly presented to him by his native country at Chelmsford a few years ago in recognition of his brilliant military career.

One of the latest proposals for the defence of London is the canalisation of the Thames in the neighbourhood of the City. On paper—for the author has communicated his proposals in map-form—the idea looks well enough. The suggestion is that the course of the Thames should be altered, and that the bend of the river round the Isle of Dogs should be converted into an immense wet dock capable of accommodating any number of mercantile or naval ships. According to the plan the Government would have to acquire possession of the Isle of Dogs for the purpose of erecting forts and arsenals upon it, so that it should be to London what Cronstadt is to St. Petersburg—"an impregnable fortress," in time of war to be surrounded by a fleet of gunboats and torpedo-boats.

The report on the annual practice of batteries of Royal Horse and Field Artillery, at the Okehampton Camp, submitted by Colonel Murdoch, R. H. A., to the Deputy Adjutant-General, R. A., contains much useful and interesting information, which affords no little food for reflection. Thus we read in two successive paragraphs:—"There are two kinds of common shell—the service steel shell and the practice cast-iron shell. A large proportion of the latter are used for practice from motives of economy." The practice shell, we learn, is liable to break up from the shock of discharge. "Officers having seen this occur at practice would not have the same confidence in firing over the heads of friendly troops as if. . . The service shell does not burst prematurely." Economy, observes the *Military Argus*, appears to be the ruling factor in the considerations governing the supply of ammunition for gun practice.

According to the reports of Lieut. Crozier, who has made special observations in Europe concerning the practical values of the smokeless powders, writes the *Scientific American*, there are difficulties that interfere with their common adoption, namely:—The irregularity of pressure, the quickness with which they deteriorate, and the intense heat, which burns the shell and affects the accuracy of fire. France, Germany, and Switzerland have issued the new powder for general use, but the discovery is still in an experimental stage. Switzerland is the only country that has adopted and adhered to a definite standard of smokeless powder for any length of time. With the new Swiss Reubin-Schmidt regulation rifle the highest velocity obtained with a charge of the new standard powder adopted by this country was 1,970 feet per second, the bullet used weighing 216 grains and the powder charge thirty-one grains. The pressure, however, was dangerously great—37,000 pounds to the square inch being recorded. Rather better results were obtained by the French with the new Lebel rifle, an initial velocity of 2,020 feet per second and 34,800 pounds pressure being recorded, the weight of the charge of smokeless powder being 431 grains and that of the bullet 232 grains. These are about the best results ever given with a small arm. The highest velocity with our Springfield rifle is 1,350 feet per second.

The wholesale desertions, when opportunity offers, from the Pacific Squadron are always a trouble to the authorities, but they seem lately to have considerably increased in number, observes the Military correspondent of the *Globe*. If the men who, often looking on it as a lark, take this silly step could only see themselves as they appear, even if they escape capture, in 12 months' time, they would think twice before giving up the comforts and respectability of a Queen's ship to become mean "bummers" at the bars of San Francisco, and, eventually, the prey of the crimps.

I have no patience with the Greeks, writes the same correspondent. They have a fine country, capable of vast development, and because Europe knows that, their credit is very good indeed. To wax exceeding prosperous they have only to keep quiet, and foreign capital would flow into Greece to everybody's advantage. Instead of this, they want to have a finger in every hot pie that is baking, and actually have decided to spend 4,830,824 drachmas on their trumpery little navy, or the rate of 2½ fr. per head of the population, while even in Italy the cost barely reaches 3fr. per head. What good do they ever expect to reap from this wanton waste of money? However good the two or three ships they are buying may be, they would at once be appropriated in case of a general war by the first Power that thought it worth while to snap them up.

With the advent of a new year there are always calculations as to the enforced retirement of officers from coveted appointments, and speculations in regard to their probable successors. Vice-Admiral Baird relinquishes the command of the Channel Squadron in April, and Sir Michael Culme-Seymour is the favourite for the place, though Admirals C. T. Curme and Sir Frederick Richards have both been mentioned. The latter, however, is more likely to succeed Vice-Admiral T. Lethbridge in the command at the Nore, which must shortly be vacant, as Admiral Lethbridge is at the top of the vice-Admirals' list. Sir William Dowell will have to retire under the age clause in August, and it is believed will be succeeded at Devonport by Prince Leiningen. Sir Walter Hunt-Grubbe will thus get his promotion, and the appointment of Admiral Superintendent of Devonport Dockyard will be vacant. Captain Fisher, Director of Naval Ordnance has been thought of as likely to get it, but it is more probable that he will remain in his present billet at the Admiralty after promotion to rear-admiral. It is unlikely that all the above changes have been correctly foreshadowed, but what I have said represents the prevalent belief at present in naval circles.

The Admiralty are becoming seriously alarmed, and not before time, at the growing deficiency in the number of engine-room artificers and stokers necessary to keep the Fleet properly effective. Men are daily, in the ordinary course of events, being pensioned off or invalided, and there are none coming in to supply the waste. The Steam Reserves, which, as their name implies, are supposed to be resources always ready to be drawn up in any case of need, have been so drained that it is with extreme difficulty an ironclad can be commissioned. The Navy is suffering just now from the prosperity of the country. Trade is so good that men do not care to enter the Queen's service afloat as long as they can get higher pay by stopping out of it. No fewer than four thousand men are wanted for the Navy, but to obtain anything like that number by voluntary enlistment in a hurry is as impossible in this as in any other country.

It will, the *Broad Arrow* anticipates, be far more difficult than heretofore to induce men who have once gained cover in an advance, to quit that cover for the open. Comparatively slight will be the compensation afforded by the increased facility for supervision afforded by a smokeless atmosphere. If we read the details of the fighting of to-day aright, it is the noise and not the smoke which renders leading of the smaller units difficult. Generally, it may be accepted that cover from view becomes of more importance than ever to both sides. In an extract from a German paper we read, in an account of the manœuvres of last year:—"During the engagement near the forest of Osterwald, the noise of continued firing from the hedge of the wood was heard, but there was no trace of smoke which could betray the presence of the shooters, though they were only 400 metres distant. The attacking troops could fire at random only, and as a matter of course the ammunition was for the most part wasted." There is then an absolute necessity for increasing the visual power of observation on the part of the leaders, if means for doing so can be obtained, and we believe that the only method which can be adopted is that of reconnaissance from balloons. Of course the interior of a forest, a wood, or copse, and buildings, will in many cases be hidden from the aerial reconnoitrer; but the roads through the forest, its edge, and the streets of a village, will be under his observation. The balloon is, we are convinced, a vehicle of locomotion which is an indispensable adjunct to the equipment of the Staff Officers of an army in the days of smokeless powder. And we would urge the authorities as strongly as we can to take immediate steps for providing it. If, in the near future, two armies enter the field against each other, one with, and the other without this valuable means of optical observation, the latter may at once lay down its arms.

DR. J. COLLIS BROWNE'S CHLORODYNE,

THE ORIGINAL AND ONLY GENUINE

ADVICE TO INVALIDS.—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the Profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880, to J. T. Davenport, Esq., 33 Great Russell-street, Bloomsbury, London. "Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy and as a general sedative, that have occurred under our personal observation during many years. In Cholraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is A DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIKE. We are, sir, faithfully yours Symes & Co., Members of the Pharmaceutical Society of Great Britain, His Excellency the Viceroy's Chemists."

CAUTION.—Vice-Chancellor Sir W. Page Wood states that Dr. J. Collis Browne was, undoubtedly, the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to.—See "The Times," July 13 1864.

Sold in bottles at 1s 1½d., 2s 9d., 4s 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitation. Sole Manufacturer—J. T. DAVENPORT, 33, Russell Street, Bloomsbury London.

GWILYM EVANS' QUININE BITTERS.

IMPORTANT TO ALL.

IT IS generally admitted that the climate of India is trying to all constitutions and we have much pleasure in calling attention to one of the simplest, yet most effectual, preparations yet dispensed. We refer to

GWILYM EVANS' QUININE BITTERS.

THIS preparation has been before the public for many years and has steadily gained in popular favour. These Bitters contain a suitable quantity of Quinine in each dose, combined with the active principles of other well-known medicinal plants, viz., Gentian, Lavender, Burdock, Sarsaparilla, Saffron, and Dandelion, mixed scientifically and in happy proportions, thereby forming a Tonic Bitter *positively unequalled*.

The QUININE are not recommended to cure "all ills that flesh is heir to," but they are strongly recommended as a bracing, invigorating, and agreeable "pick-me-up."

The QUININE BITTERS give tone.

QUININE BITTERS strengthen the system.

QUININE BITTERS improve the appetite and make a man feel that he has nerves of steel.

QUININE BITTERS give new heart and "go" to all who have lost strength and spirit through long illness, such as fevers or constant residence in hot countries.

QUININE BITTERS revive the spirits, and as such are recommended to people who wish to avoid or abstain from intoxicants.

QUININE BITTERS steady the nerves, as patients who have suffered from sleeplessness arising from over-exertion and anxiety frequently testify.

QUININE BITTERS reduce the temperature, and consequently reduce thirst, and are a specific against fevers.

QUININE BITTERS are purely vegetable, and are suitable to all ages, from the infant to the adult, and are peculiarly adapted to delicate females.

Ladies compelled to live in hot climates like India cannot readily conceive the benefits derivable from this preparation.

The great secret of the success of GWILYM EVAN'S QUININE BITTERS is that many people who dare not take *Quinine* can take it in its present combination with other medicinal plants without producing headache or other unpleasantness.

QUININE BITTERS are confidently recommended to Clergymen, Officers, Civil Servants, Lawyers, Merchants, and Professional Men generally who have to devote themselves to Study and Brain Work. To Clerks, Shop Assistants, Sempstresses, and all who Work Long Hours in Close Rooms.

TO THE SOLDIERS OF THE FIELD,
TO THE SAILORS OF THE DEEP,
TO THE SHEPHERDS OF THE BUSH,
WE STRONGLY RECOMMEND THEM;
They give
STRENGTH TO THE WEAK,
HEALTH TO THE SICK,
and
ENJOYMENT IN LIFE TO ALL.

"QUININE BITTERS"—NOTHING MORE.

Once upon a midnight dreary, ill in bed quite weak and weary,
With sleeplessness, lone spirits, and indigestion sore;
While I strove in vain at napping, suddenly there came a tapping,
As of some one gently rapping—rapping at my chamber door!
"It's Doctor Draughts," I muttered, "tapping at my chamber door."
'T was the Doctor, nothing more.

Oh distinctly I remember; it was in the bleak December,
And in every single member of my body pains I bore;
Eagerly I wished the morrow—vainly had I sought to borrow
From drugs surcease of sorrow—sorrow for my pains, galore:
And I asked if I should ever be as healthy as before:
Quoth the Doctor—"Never more!"

"Your chest is bad, that's certain; your neuralgia's always hurting,
And your liver is so sluggish that life's to you a bore;
And your heart's so bad at beating that in vain you're sleep entreating,
While from weakness even now you perspire from every pore"—
But, Doctor, when shall I be fit to pass the threshold of my door?
Quoth the Doctor—"Never more!"

Presently my soul grew stronger; hesitating then no longer:
"Nurse, send for GWILYM EVANS' QUININE BITTERS, implore!"
And the fact is, after tapping one bottle I was napping
In the sweet refreshing napping I had known in days of yore
And with neuralgia, palpitation, indigestion, and bronchitis.
I was troubled never more

Now, to all within my nearing, who are now these ailments fearing,
I will give the good advice I received myself before;
See that Evans' stamp's unbroken, and the bottle bears the token
Of "GWILYM EVANS' QUININE BITTERS,' so well known and praised of yore.
Merely this, and nothing more.

FRAUDULENT COUNTERFEITS.

WE are particularly anxious to caution the public against the attempts of some members of the trade to pass substitutes or even counterfeits of our preparation. Ask plainly for GWILYM EVANS' QUININE BITTERS, and see that the name GWILYM EVANS' is on label, capsule, and bottle. Every bottle sent out of the laboratory is prepared according to his recipe and under his direct management. Sold in bottles at Re. 1 and Rs. 2 by all chemists and native dealers in patent medicines.

N.B.—Every bottle is capsuled and each capsule bears the words "GWILYM EVANS' QUININE BITTERS."

DR. DE JONGH'S

KNIGHT OF THE ORDER OF LEOPOLD OF BELGIUM
KNIGHT OF THE LEGION OF HONOUR

LIGHT-BROWN COD LIVER OIL

THE PUREST. THE MOST PALATABLE. THE MOST DIGESTIBLE. THE MOST EFFICACIOUS.

Incontestably proved by Thirty Years' Medical Experience to be

The only Cod Liver Oil which produces the full curative effects in

CONSUMPTION AND DISEASES OF THE CHEST, THROAT AFFECTIONS, GENERAL DEBILITY, DISEASES OF THE SKIN, WASTING DISEASES OF CHILDREN, RICKETS, AND ALL SCROFULOUS DISORDERS.

SELECT MEDICAL OPINIONS.

SIR G. DUNCAN GIBB, Bart., M.D.,
Physician to the Westminster Hospital.

"The value of DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL as a therapeutic agent in a number of diseases, chiefly of an exhaustive character, has been admitted by the world of medicine; but, in addition, I have found it a remedy of great power in the treatment of many Affections of the Throat and Larynx, especially in Consumption of the latter, where it will sustain life when everything else fails."

DR. SINCLAIR COGHILL,
Physician to the Royal National Hospital for Consumption, Ventnor.

"I have convinced myself that in Tubercular and the various forms of Strumous Disease, DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL possesses greater therapeutic efficacy than any other Cod Liver Oil with which I am acquainted. It was especially noted, in a large number of cases in which the patients protested they had never been able to retain or digest other Cod Liver Oil, that DR. DE JONGH'S OIL was not only tolerated, but taken readily, and with marked benefit."

JOSEPH T. POPE, Esq., M.R.C.S.,
Late Staff Surgeon, Army, Professor of Hygiene, Birkbeck Institution, London.

"I found during my Indian experience that the worth and character of DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL remained unchanged by tropical heat or foreign climate, and it was, from its uniformity of character, particularly adapted for long-continued administration. The value of 'hydro-carbons' in all debilitated states of the system is now becoming thoroughly recognized; and it is, without doubt, from the animal oils and fats, rather than from their vegetable substitutes, that we may hope to derive the surest benefit. The Oil of DR. DE JONGH places in everyone's reach a reliable and valuable remedy, one that cannot be too widely recognized."

DR. R. G. CROFT,
Author of "Handbook for the Nursery."

"DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL is almost a specific in many of the Diseases peculiar to Infancy and Childhood, and I have seen marked benefit produced by its use. Patients prefer it to the Pale Oils, and are able to retain it more comfortably."

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL is supplied ONLY in IMPERIAL Half-Pints, Pints and Quarts, sealed with BETTS'S Patent Capsule impressed on the top with DR. DE JONGH'S Stamp, and on the side with his Signature, and the Signature of ANSAR, HARFORD & Co.; and bearing under the wrapper a Label with the same Stamp and Signatures.

WITHOUT THESE MARKS NONE CAN POSSIBLY BE GENUINE.

Sold by all respectable Chemists, Druggists, and Storekeepers throughout the World.

WATCH MANUFACTURERS, PRACTICAL WATCHMAKERS AND AGENTS.

THE universal favour that the Watches of our own manufacture have met with, under whatever name or style they have been offered in every part of the world, fully justifies us in stating that they are the best, especially the most honest articles in the market. They are warranted free from such common materials as the "garnet stone" for jewelling, which wear out and grind away the pivots and acting surfaces in sometimes less than 5 years.

We do not actually manufacture for the Trade, not being able to compete with the imitation Watches now so largely advertised and sold in India, where Traders and Retailers want "Profits" and the least costly goods to make money with. In sending your orders to us you are certain to get a genuine Watch.

The following Ruby Jewelled Watches, from our new Illustrated Catalogue, are recommended :—
